Teach your children and yourself bathing-, boating- and ice-safety together with International Lifesaving Federation – Europe, ILSE.

It is important to know these safety rules when you and your child are nearby or in water.

With the help of this information leaflet, you and your child can learn the most important rules when you color in the four selected pictures.
Never walk away from your parents nearby water!
Red flag means no bathing. Obey the signs!
Never push anyone into the water!
Always wear life jacket while boat riding!
Don’t walk on ice thinner than 10 cm!
Ten rules for water safety

1. Never walk away from your parents nearby water!
2. Be careful with floating toys!
3. Red flag means no bathing. Obey the signs!
4. Safe bathing – beware of the depth!
5. Don’t dive into unknown water!
6. 112 – easy to know!
7. Never push anyone into the water!
8. Always wear life jacket while boat riding!
9. Always swim in supervised areas!
10. Don’t walk on ice thinner than 10 cm!
